

Echoes of Kuorion

An Interactive Storytelling Experience

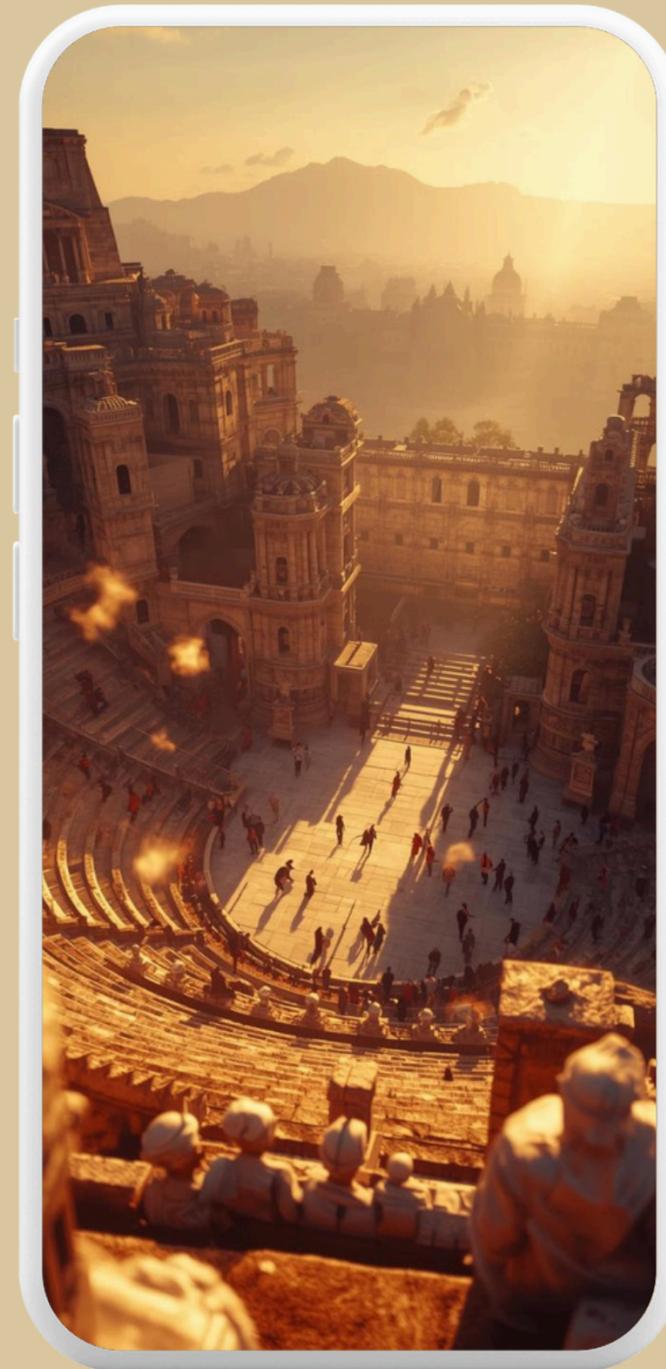

Group 1

CULTURAL HERITAGE

Project Overview: Preserving Culture

The Echoes of Kuorion project aims to **digitally preserve** the amphitheatre, enabling immersive storytelling experiences that connect users with the rich history of Kuorion.

“You now stand
where the
footsteps of
legendary warriors
once walked...”

The Shield as a Portal

Interactive Object

The shield acts as an **interactive object** that transforms user experience.

Future Plans

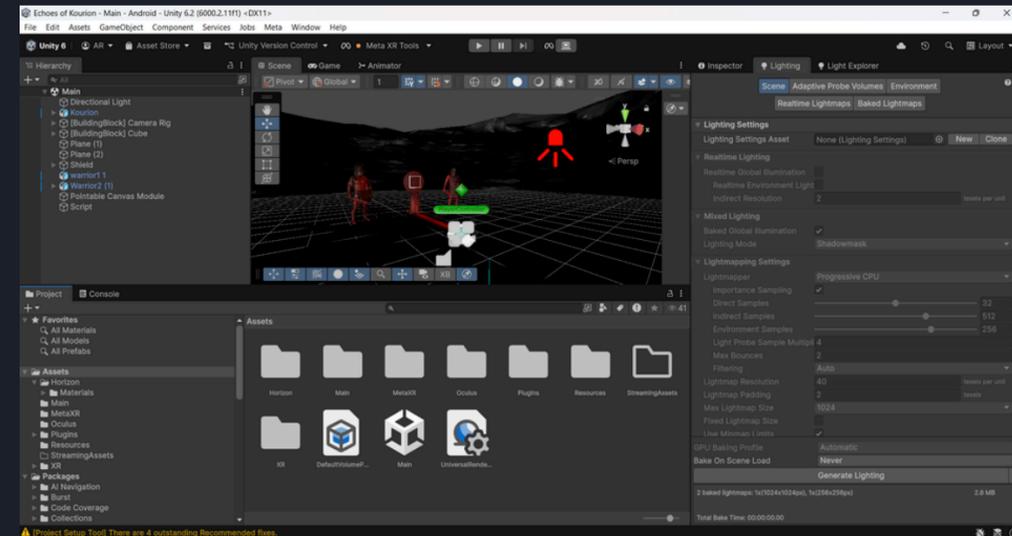

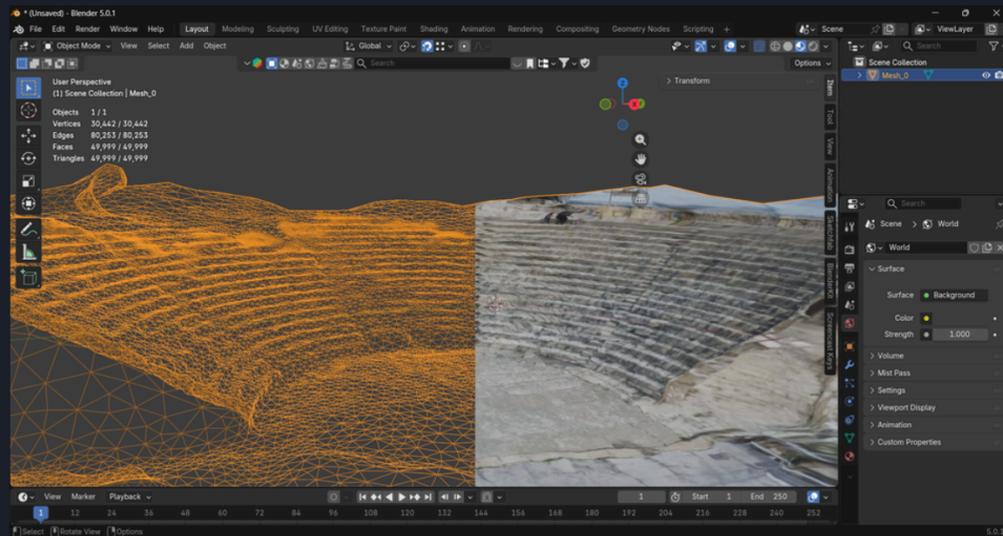

Plans include developing a **fully immersive 3D portal**, enhancing storytelling through advanced VR technology, and further engaging users with rich, interactive narratives that bring Kuorion's history to life.

CULTURAL IMMERSION

Preserving History Through VR

Interactive storytelling through VR enriches engagement, allowing users to connect with historical narratives in a way that is compelling and memorable. This project aims to foster deeper appreciation for heritage.

Future Enhancements and Vision

3D Immersion

Transitioning to fully immersive battle reenactments enhances user engagement and realism.

Cultural Expansion

Expanding the VR experience to other cultural sites will broaden educational outreach and engagement.

Thank you!
